

BOBCAT'S FIRST FIGHT INJURY

Before
Dusty bit
him here

Bobcat learned that 5 year old Dusty was the top cat and not to be trifled with.

Thursday, the cats played outside. It was a lovely spring day in California. But the following day Bobcat showed Verne his rear left leg that had a patch of fur missing. Touching it made Bobcat "MOOOOOOHH-HHWWWWW!!!" in pain. "Oh, Bobcat!" exclaimed Verne. "That's a bite and your foot is swollen!"

"That's good Bobcat, be submissive to the senior feline" Verne instructed.

"You owe me \$80 there champ"

Bobcat had earned his first serious cat injury. Verne lectured him *"How many times have I told you to leave Dusty alone! She's not a toy, she wants you to leave her alone. I told you she can turn into a fierce feline when she's had enough."*

Out came the cat carrier and they drove to the Vet who shaved away a patch of fur revealing 2 bite holes from Dusty's fangs. The Vet squeezed some pus out but Bobcat never whimpered. But Verne did when he had to pay the \$80 bill. *Bobcat would be taking oral antibiotics for a week.*
