

# Cougar & the full moon

Cougar ran around so excited! There was a big glowing thing in the sky! The night was lit up by a weird pale light. Cougar was very happy to see the big, uh...whatever it was!

Verne explained to Cougar that it was called "the full moon." He was so young he'd only seen one or two before but hadn't been big enough to play outside.

Cougar like the moon. He liked Verne and his older sister Dusty, too. Cougar was happy at the Cat & Cactus Farm.
