## Cougar Quotes

**"In these difficult financial times** it is important for a cat to eat as many gophers, mice, and birds as possible to help reduce dependence on expensive canned cat food."

**"Not all humans are idiots** like the "Here kitty-kitty" stereotype. Some may be intelligent, like my human, who treats cats with respect. He listens to my cat needs and responds with appropriate affection balanced by a tolerance for having bloody rodent pieces left lying about the home."

**"Neutered, being fixed—**what is all the fuss about? Girl cats have always smelled sort of interesting at the back end. I still like to sniff them even though I don't really remember why."
